

COMPACT TRAINING COURSE

SIC Safe on Four®

Immediate Restoration
of Edentulous Jaws

Your Invitation to Safe-on-Four Training

Experience the Safe-on-Four concept in both theory and practice. In this compact training course, **Dr. Steffen Kistler** and **MDT Stephan Adler** demonstrate how patients can receive fixed teeth within a single day thanks to modern implantology – covering everything from precise preoperative planning to successful clinical implementation.

Participants will gain comprehensive insights into:

- ✓ Patient selection & preoperative planning
- ✓ Surgical and prosthetic workflows
- ✓ Laboratory procedures
- ✓ Live surgery with case discussions

Two Dates Available – Choose Your Preferred

1. 20–21 March 2026 (Course language: German)
2. 23–24 October 2026 (Course language: English)
